Board Approved: November 9, 2010

## **Queen's Harbour Yacht and Country Club**

### **Owners Association, Inc.**

#### **Rules, Regulations and Enforcement Procedures**

When you decided to live in Queen's Harbour you were likely attracted by the Community's natural beauty, the unique nautical influence, the high standards of architectural design and landscaping, the environmental protection, the sports facilities, the quiet streets, the limited access and quality of life. You wanted something other than a non-gated, traditional city neighborhood. You also hoped that the value of your property would increase — partially because of Queen's Harbour's good reputation.

The Rules and Regulations provided for by the Queen's Harbour Yacht & Country Club Declaration of Covenants, Conditions, Restrictions & Easements ("Declaration"), and by the decisions of the Board of Directors of the Queen's Harbour Yacht & Country Club Owners Association, Inc. ("Association") are part of the means for ensuring that the Community meets your expectations (the others being the Architectural Review Board (ARB) Guidelines and the Harbour Rules and Regulations). All property owners agreed to abide by these Rules and Regulations when they purchased their lot or home. It is the responsibility of the property owner to be aware of all of the current Association's rules and regulations.

Most of the Rules and Regulations are published here. However, other specifics are included in the Harbour Rules and Regulations, in the ARB Guidelines, in the Declaration and in postings at the Community Center and elsewhere. There are also Federal, State, and City laws and ordinances that apply to activities in the Community. Some of the permits granted to the Queen's Harbour developers and conveyed to the Association by regulatory agencies contain restrictions on land use and activities in the Community.

The Declaration permits the Board of Directors to change the Rules and Regulations at any time. If there are disputes over the interpretation and enforcement of the rules, the Board has the final decision authority.

Enforcement procedures described below conform to all current laws and are similar to the practices of other "gated communities" in the Jacksonville area. All property owners or their tenants, and their guests are expected to comply with these Rules and Regulations. For violators, the enforcement procedures apply.

Most Jacksonville City Code provisions apply in Queen's Harbour. Some are referenced herein. Others of interest include bicycle, skateboard, motorized skateboards, ATV's, scooters, roller blade, roller skate and pedestrian traffic, firearms, fireworks, drugs/narcotics, environment, public intoxication, loitering, solicitations, making threats, fighting, destruction of property, obstruction of sidewalks and streets, occupational licenses, odors, traffic, boating, signs, etc. These are available in the City Ordinances.

We all know that no matter how comprehensive the Declaration and rules are, the real underpinning of a great Community is the good will and "cooperative spirit" of its residents to abide by the covenant restrictions and rules. We hope that such a cooperative spirit will be the hallmark of Queen's Harbour.

Certainly situations may arise that will require further modifications to these rules. Always feel free to recommend changes to the Property Manager or the Board of Directors.

## Architectural Review Board Guidelines

Nearly all gated communities — including Queen’s Harbour — have Architectural Review Boards ("ARB") and ARB Guidelines to assure that all residences are consistent with a pre-determined appearance and ambiance. The Guidelines specifications apply to homes being built, changes to lots and the landscaping and exteriors of completed homes. They also govern certain activities of contractors. The Queen’s Harbour *ARB Guidelines* contain the current guidelines and penalties for violations thereof. Copies of the most recent guidelines are available at the Association's office and on the QHYCC.com website.

## General Rules and Regulations

- I. ACCESS TO QUEEN'S HARBOUR: Access is limited to property owners or their tenants, guests, Owners Association employees, golf course and country club employees and patrons, certain government officials, certain contractors and others who have received permission from authorized Association officials.
  - A. QHYCC DECALS: All vehicles owned or leased by property owners are recommended to have a Queen's Harbour identification decal on the windshield (lower left side). The decal does not automatically permit access through the gate access guard lane. The gate officer does not open the gate solely on viewing the decal. The decal expedites the access screening and entry process, but the driver must stop at the window and identify themselves before being granted access.
  - B. BAR CODES: Residents are encouraged to purchase an electronic bar code decal intended for display on a left side, rear window. These bar code decals that enable usage of the automatic entry lane are available at the POA administrative offices for all property owner or their tenants owned vehicles. To assure trouble-free use, POA employees will affix the barcodes in the correct position at the time of purchase. Certain vehicles that may not be able to display the barcode in the correct position are not eligible for barcode privileges. Much like the State vehicle License Tag, the barcode belongs to the vehicle to which it is assigned, and may not be moved or transferred to other vehicles.

To be eligible to purchase a bar code decal, the vehicle must display a valid permanent license plate. If the vehicle displays a temporary tag, the property owner or their tenant will be required to pay the normal applicable bar code fee plus a deposit that will be refunded when the owner returns to the POA Administrative office with the permanent license plate number. This notification must take place within 45 days of the issuance of the Bar Code. Otherwise the deposit is lost by default, and the barcode will be immediately deactivated until the permanent number is provided. In no case will the deposit be returned after the deactivation.

Attempts to use the automatic entry lane without a properly positioned bar code are subject to a fine or suspension of bar code access privileges. Upon selling the vehicle, the Queen's Harbour identification decal and/or bar code must be removed by the property owner or their tenant as applicable.

- C. WATERCRAFT: Watercraft eligible to be indefinitely moored in Queen's Harbour must have a Queen's Harbour identification decal in a location where it can be seen easily by the Harbourmaster.
- D. GUESTS: To expedite the flow of vehicles through the front gate, property owners or their tenants should advise Controlled Access in advance via the automated voice server guest authorization system that they are expecting guests and the length of time they will need a guest pass. Guest vehicles must be registered with Controlled Access and must display an approved pass in the windshield at all times. They may not be issued for more than 30 days without the approval of the Property Manager.

- E. SERVICE CONTRACTORS, DELIVERIES, TAXI'S, ETC: Property owners or their tenants should advise Controlled Access in advance of companies or individuals which need to be authorized entry. Property owners or their tenants must make certain that deliveries made at times other than normal daytime business hours do not violate noise and nuisance ordinances, or other rules herein.
- F. ACCESS TO PRIVATE LOTS AND RESIDENCES BY ASSOCIATION OFFICIALS: Directors, Association officers, management agents, employees and appropriate contractors, including Controlled Access Officers, are permitted to enter upon private lots (improved and unimproved) for the purpose of investigating, evaluating, or rectifying certain violations that have not been corrected by property owners within a reasonable period of time, or when safety or other factors require expedited action. Prior notice will be given at least one day before entry, however if there is no response, entry will proceed as planned. No entry into residences, garages or gated and locked areas will be undertaken except in compliance with applicable laws.
- G. OPEN HOUSE PROCEDURES: Property Owners or real estate agents are encouraged to prepare brochures with sales information and directional maps to assist potential open house visitors. These should be left at the gate prior to the Open House commencing. The Controlled Access gate officer will greet the visitor and distribute the brochures provided the visitor is able to identify the location of the Open House they are attending.

If a list of invitees is available, property owners and real estate agents are encouraged to provide it to Controlled Access prior to commencing the Open House so the gate officer will have knowledge of the pre-authorized guests.

If the general public is invited to the showing, the agent must do either of the following:

- 1) Provide Controlled Access with a telephone number at the home so that admittance can be authorized per guest.
  - 2) If a phone will not be available at the home to authorize entry, the agent must provide Controlled Access with a cellular phone number.
- II. DENIAL OF ACCESS: Property owners have a right to access the community via the gate attendant lane, however, property owners or their tenants and guests, Club employees and guests may be denied the use of the bar code-controlled electronic gate and/or the lock for certain violations. Access to the Community by other persons, contractors, vehicles, trailers and watercraft may be denied at any time provided this action does not conflict with the Declaration or with current laws and statutes.
  - III. ANIMALS AND PETS: Only common domestic household pets are allowed in residences. A property owner or their tenants may domicile no more than four animals.

- A. NUISANCE PETS: Pets that bark, meow, or engage in other disturbing activity for an extended period of time may be considered a nuisance. Additionally, excessive barking (defined as two reported incidents within a one month period) is considered to be a nuisance violation per City of Jacksonville Code section 462.304. Excessive barking incidents should be reported directly to the City animal control division at 630-2489.

  - D. WILD ANIMALS: Wild animals, including ducks, geese, and feral cats, are not to be fed by any person for health safety reasons. The Board of Directors will be the final arbiter of all disputes related to animals and pets.
- IV. BASKETBALL BACKBOARDS/GOALS: All basketball backboards/goals may be used in driveways and adjacent paved surfaces. All basketball backboard/goals must have prior approval of the ARB as to design and location. Clear backboards are recommended and preferred.
- Outside basketball play is not permitted between 11 PM and 7 AM.
- V. BONFIRES: City of Jacksonville code requires all residents to secure the approval of the Fire Marshall before igniting any bonfire, and all approved fires must not encroach within 50 feet of any structure.
  - VI. DAMAGE TO COMMON PROPERTY: When the Common Property is damaged as a result of the willful or negligent acts of a property owner, tenants, family, guests or invitees, such damage shall be repaired by the Association and the cost thereof shall be paid via a special assessment against the property owner.
  - VII. EMPLOYEES OF QUEEN'S HARBOUR:
    - A. PERFORMING SERVICES FOR RESIDENTS: Employees of the Association and its contractors shall not be required to attend to any personal matters or business of property owners. Likewise, they may not accept part-time employment from a property owner if it creates a conflict of interest with their duties as an Association employee or contractor. If services other than those associated with their Association employment are provided to property owners or their tenants by any of the employees of the Association or its sub-contractors, the Association assumes no

## Rules Enforcement Procedures

- I. **BACKGROUND:** The original Rules and Regulations were codified in November 1989, as part of the Declaration that was signed and approved when the community was established. All rights, remedies and enforcement procedures set forth in the Declaration may be invoked to assure compliance with these Rules and the Declaration's provisions for the payment of assessments.

Subsequent to the recording of the Declaration, Florida Statute 720 was adopted, which outlines the obligations of Association members, and provides for certain remedies for violations, including the levy of fines and suspension of certain use rights. The Declaration has been amended consistent with this Statute's provisions regarding the Association's right to establish and enforce rules.

The amended Declaration's provisions with respect to enforcement of rules and regulations are also similar to the practices of other gated communities in the Jacksonville area.

- II. **APPLICABILITY:** All property owners, their tenants and their guests are expected to comply with the Rules and Regulations, and are subject to the enforcement procedures described briefly below. There is a separate enforcement procedure/fine schedule for the Architectural Review Board Guidelines. The procedures listed below apply to all other rules and regulations of Queen's Harbour.
- III. **VIOLATIONS:** Violations are to be reported to the Property Manager's office in order to maintain appropriate written records. Violators will be contacted by the Property Manager and requested to correct the violation. If the violation continues, the Property Manager will notify the violator that formal procedures are to be implemented to enforce the Declaration and these Rules and Regulations.
- A. **Fines / Administrative Sanctions:** Fines and/or administrative sanctions may be imposed with at least 14 days written notice to the violator and an opportunity is provided for a hearing before a Fine Appeals Hearing Committee (FAHR), duly appointed by the Board of Directors.
- B. **Appeals:** Property owners or their tenants who violate the Queen's Harbour rules will be permitted to explain any mitigating circumstances or other facts to the Fine Appeal Hearing Committee (a group of their peers) before any final fine (if any) is levied or before other action is taken. If the violator does not appear before the Fine Appeal Hearing Committee and has not arranged for a revised date or time, he or she will have waived the right to present his or her views before a penalty is imposed.
- C. **Determination of Fines/Sanctions:**  
The Board of Directors has approved guidelines for fines, which are listed at the end of this section for reference. The Fine Guidelines may be amended from time to time at the discretion of the Board.

The Fine Appeal Hearing Committee is authorized to recommend fines within the limitations of the Fine Guidelines, taking into consideration the facts and circumstances of each specific violation. The Fine Appeal Hearing Committee, by majority vote, will either recommend a fine within the limitations of the Fine Guidelines or determine an appropriate administrative remedy to include suspension of amenities privileges for the violation.

Habitual Violations: A habitual violation is defined as more than three (3) violations of an individual rule within a consecutive six (6) month period. For any Property Owner that is found to be in habitual violation of the Association rules or who fails to pay outstanding fines within a six (6) month period, or cumulative fines for a specific type violation that exceeds the maximum fine amount, the Board may suspend all amenities usage privileges.

- IV. ASSESSMENTS: The Owners Association may impose administrative sanctions or suspension of privileges for failure to pay assessments or charges that are due to the Association. If any assessment obligations are not paid within 90 days, the use of the bar code-controlled electronic gate may be denied.. The Association may also suspend the voting rights of property owners, use of the Lock and the use of the Community Center amenities by a property owner or their tenants, their family members, guests or invitees. Accounts may also be referred to the Associations attorney for legal collection action.
- V. VIOLATION OF CIVIL LAW: When appropriate, the Jacksonville Sheriff's Office will be called to handle violations of civil laws and statutes.
- VI. FINE SCHEDULE: Property owners or their tenants need to understand that the fines listed on the next pages are the maximum amounts that the Fine Appeal Hearing Committee or the Association's management is permitted to levy for each occurrence of a violation of the rules. The recommended fines could be lower – or no fine at all – depending upon the severity and/or the repetitiveness of the violation.
